

Concept

Users

Students

Stakeholders

Tourist & Residents

Mission

Create a more open communication for Venice.

Draw attention to what is happening around.

Take a free way, enjoy the beautiful life in Venice.

Goals

Valuable information

Using body movements to complete the process

Interaction between the people and origami

Randomness and uncertainty of the information

Origami

Device

Someone can write a message on a mobile phone and transfer it to a paper flower.

Someone else, alerted by his or mobile phone to the flower's proximity, can collect the message wirelessly and send an answer to the original writer.

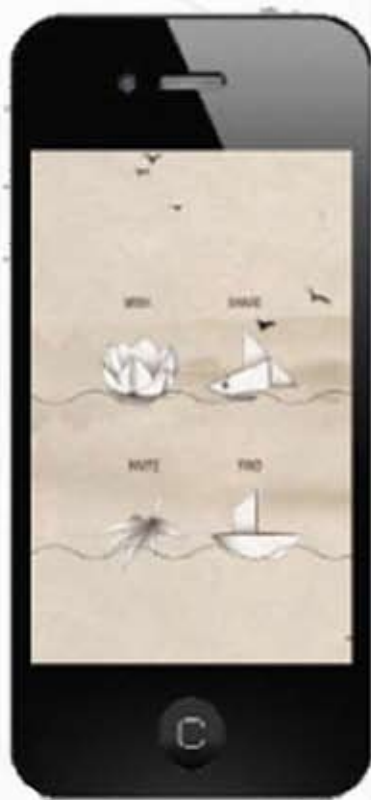

Operation
